Power wheelchair users: Would you prefer to fly independently seated in your own wheelchair in the cabin, or keep with the current method of transfer and your chair goes in the aircraft hold?

According to W.H.O.

Disabled spending globally is a growing  
\$8 Trillion

What industry would not like some of that  
market..??

**Seoul** – The International Air Transport Association (IATA) 75th Annual General Meeting (AGM) **unanimously approved** a resolution to improve the air travel experience for the estimated **one billion people living with disabilities worldwide.**

An ever increasing  
ageing population  
living longer with  
additional mobility  
needs.

**With a huge  
disposable income**

**Don't be part of the problem**

**Be part of the solution**

Flying with dignity and safety  
should be for everyone

Now is the time to  
....Disrupt the cabin

Yes your majesty!
